

Sole Verde

## SV EDGE 4.2K

4.2 kW · 24V

Grid-tie capable energy storage inverter — 98% grid efficiency,  
PF>0.99, short-circuit protected.

## SPECIFICATIONS

|                    |                                         |
|--------------------|-----------------------------------------|
| Output             | Pure sine wave · 220/230/240VAC ±5%     |
| source             | Soleverde Catalogue 2026 v2             |
| MPPT range         | 60–500VDC                               |
| Peak power         | 8000VA                                  |
| Rated power        | 4200W                                   |
| Max PV input       | 5000W                                   |
| Grid-connected     | 170–265VAC · 17.4A · PF>0.99 · eff. 98% |
| Battery voltage    | 24VDC                                   |
| Max charge current | 120A                                    |
