

Sole Verde

## SV EDGE 3.2K

3.2 kW · 24V

Energy storage inverter — adjustable parameters, lithium communication, external WiFi, generator dry contact.

## SPECIFICATIONS

|                    |                                     |
|--------------------|-------------------------------------|
| Output             | Pure sine wave · 220/230/240VAC ±5% |
| source             | Soleverde Catalogue 2026 v2         |
| MPPT range         | 30–500VDC                           |
| Peak power         | 6000VA                              |
| Rated power        | 3200W                               |
| Max PV input       | 3000W                               |
| Operating temp     | –10°C–50°C                          |
| Battery voltage    | 24VDC                               |
| Max charge current | 100A                                |
